

One Family One Team One Plan

Coordinated Service Planning is a community collaboration for planning and coordination services for families with children, youth and young people who have special needs.

A service planning coordinator will work with you and your care team to create one coordinated service plan to meet your specific goals.

You may require Coordinated Service Planning if:

- You have a child/youth with complex needs who is under 18 years old
- You are a young person with complex needs between 18-21 year old and are still in school

AND

- There are multiple service providers and intensive help is required to set goals and plan services
- There is an urgent need for system wide planning, innovation and creative problem solving
